1 Patch Documentation

1.1 About this document

This paper documents the changes to the imc Learning Suite in the specified version. These changes typically resolve known program errors. The resolved errors are listed individually. For each resolution, an area is listed where the corresponding issue was located and solved. Furthermore, a risk assessment was made based on the source code changes which were needed to be made to resolve the issue. This risk assessment does not assess a risk for a certain use case or scenario because this varies for each customer individually. Each change was checked according to the certified processes (ISO 9001:2008) of our development and QA department – at least two times before delivery. It is nevertheless recommended to perform additional testing of customer specific scenarios or use cases, if a change was made in an area that could have an impact on these scenarios.

1.2 Modifications

Area	Risk of changes			
	High	Medium	Low	No noticable risk
Miscellaneous	0	0	0	3
Recertification / Compliance	5	0	0	0
Skills	0	1	1	0
My staff (Supervisor)	0	0	1	0
Security	0	0	1	0
Total: 12 issues	5	1	3	3

*) Notes about modifications with “high risk of changes”

- Recertification / Compliance
 - If user is added to the group again and "Automatic update to group members" (previously "Automatic adding") is enabled, he is enrolled to the course again and correct due date is shown accordingly on the personal syllabus tab in the participant administration in course template. Automatic enrolment should work for the group the first time even though the setting "Automatic adding" is false. Please note this setting has been renamed to "Automatic update of group members" as this setting influences if any updates to the group members should be considered for the next enrolment.
 - If user is added to the group again and "Automatic update to group members" (previously "Automatic adding") is enabled, he is enrolled to the course again and correct due date is shown accordingly on the personal syllabus tab in the participant administration in course template.
